Independent Auditors' Report

Board of Regents
Western Oklahoma State College
Altus, Oklahoma

We have audited the accompanying statements of net assets of Western Oklahoma State College (the "College"), a component unit of the State of Oklahoma, as of June 30, 2010 and 2009, and the related statements of revenues, expenses, and changes in net assets and statements of cash flows for the year then ended. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the College's discretely presented component unit, the Western Oklahoma State College Foundation, Inc. Those financial statements were audited by another auditor, whose report thereon has been furnished to us, and in our opinion, insofar as they relate to the amounts included for the Foundation, are based on the report of the other auditor.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General for the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Foundation were audited by other auditors and were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditor provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of Western Oklahoma State College and its discretely presented component unit, Western Oklahoma State College Foundation, Inc. as of June 30, 2010 and 2009, and the respective changes in financial position and, where applicable, cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 5, 2010, on our consideration of the College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting and compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, as listed in the Table of Contents, is not a required part of the basic financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

OVERVIEW OF THE FINANCIAL STATEMENTS AND FINANCIAL ANALYSIS

The annual report consists of three basic financial statements: the Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows.

The Statement of Net Assets and the Statement of Revenues, Expenses, and Changes in Net Assets report information on the activities of the College as a whole. When revenues and other support exceed expenses, the result is an increase in total net assets. When the reverse occurs, the result is a decrease in total net assets. The relationship between revenues and expenses may be thought of as the College's operating results.

These two statements report the College's net assets and changes in total assets. You can think of the College's net assets-the difference between assets and liabilities-as one way to measure the College's financial health, or financial position. Over time, increases or decreases in the College's net assets are an indicator of whether the financial health is improving or deteriorating. You will need to consider many other non-financial factors, such as the trend and quality of student applicants, freshman class size, student retention, condition of the buildings and safety of the campus, to assess the overall health of the institution.

All assets and liabilities included in these two statements are presented using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. All of the current year's revenues and expenses are taken into account, regardless of when cash is received or paid.

FINANCIAL ANALYSIS OF THE COLLEGE AS A WHOLE (Continued)

June 30, 2010 compared to June 30, 2009 resulted in the following revenue and expenditure changes:

- Tuition & fees revenues increased by 33.81%. This increase is due to a combination of several factors. Collections of prior year receivables exceeded management's estimates by approximately 7%, out-of-state waivers increased by \$832,470 (due to a 95.59% increase in out-of-state enrollment), and although tuition and fee rates did not increase over the FY 09 fiscal year, total enrollment increased 33.25%. Auxiliary revenues increased by 9.80%, which represents an decrease of \$17,742 in Residence Hall and an increase in student store of \$60,935. Federal Grants & Contracts experienced a decrease of -15.38%, which is mostly due to the USDA grant that ended FY 09. The overall operating revenues increased by 14.49% over that of FY 09.
- Interest revenue and expense both declined this year. The interest revenue decreased by 70.34%, primarily caused by the decreased interest earnings received on the unexpended 2005 OCIA bond funds. These bond funds were fully spent by October 2009. The interest earnings on the OCIA bond funds are restricted to the projects that these funds support. The small decrease in the interest expense is attributed to the OCIA bond payments made by OCIA on behalf of the College in the amount of \$234,634, a decrease of \$19,497 from the prior year.
- The \$108,020 increase in the Capital grants and gifts represents the income from two congressionally directed grants that Western received in FY 2010 that were restricted to capital expenditures. The funds were used for Nursing Program equipment needs and for Safety and Security equipment needs on campus.
- The on-behalf contributions to Oklahoma Teacher's Retirement System represent the amount of dedicated state revenue from the State's sales, use and income taxes that are used as contributions to the Oklahoma Teacher's Retirement Program (OTRS). For 2010, the State of Oklahoma contributed 5% of the State's General Revenue Fund to the OTRS on behalf of participating employers. The College has estimated the amounts contributed to the OTRS by the State on its behalf by multiplying the ratio of its covered salaries to total covered salaries for the OTRS for the year by the applicable percentage of taxes collected during the year. This amount was \$342,859 for FY 2010 and \$390,956 for FY 2009, which is a 12.30% decrease, or \$48,097.
- On-behalf capital lease payments decreased by 8.16%, or \$56,295 less than previous year's numbers, which is the On-Behalf Payment for the interest and principal for the 1999 and 2005 OCIA bond issues.

FINANCIAL ANALYSIS OF THE COLLEGE AS A WHOLE (Continued)

June 30, 2009 compared to June 30, 2008 resulted in the following revenue and expenditure changes:

- Tuition & fees revenues increased by 32.69%. This increase is due to a combination of several factors. Collections of prior year receivables exceeded management's estimates by approximately 10%, out-of-state waivers increased by \$703,000 (due to a 58.97% increase in out-of-state enrollment), tuition and fee rates increased by 8.6% over the FY 08 fiscal year and total enrollment increased 12.39%. Auxiliary revenues increased by 25.84%, which represents an increase of \$19,196 in Residence Hall and an increase in student store of \$71,253. Federal Grants & Contracts experienced an increase of 25.84%, due to an increase in U.S. Department of Agriculture Distance Learning and Telemedicine Grant in the amount of \$358,000.
- Interest revenue and expense both declined in FY 2009. The interest revenue decreased by 74.28%, primarily caused by the interest earnings received on the unexpended 2005 OCIA bond funds. This balance is decreasing as the funds are being spent on the bond projects. The interest earnings on these funds are restricted to the projects that these funds support. The small decrease in the interest expense is attributed to the OCIA bond payments made by OCIA on behalf of the College in the amount of \$254,131, a decrease of \$11,404 from the prior year.
- The 61% increase in capital grants and gifts is from new gifts to the library holdings.
- The on-behalf contributions to Oklahoma Teacher's Retirement System represent the amount of dedicated state revenue from the State's sales, use and income taxes that are used as contributions to the Oklahoma Teacher's Retirement Program (OTRS). For 2009, the State of Oklahoma contributed 5% of the State's General Revenue Fund to the OTRS on behalf of participating employers. The College has estimated the amounts contributed to the OTRS by the State on its behalf by multiplying the ratio of its covered salaries to total covered salaries for the OTRS for the year by the applicable percentage of taxes collected during the year. This amount was \$390,956 for FY 2009 and \$397,720 for FY 2008, which is a 1.70% decrease.
- On-behalf capital lease payments maintained at the previous year's numbers, which is the On-Behalf Payment for the interest and principal for the 1999 and 2005 OCIA bond issues.

Another way to assess the financial health of an institution is to look at the Statement of Cash Flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also helps users assess an entity's ability to generate future net cash flows, its ability to meet its obligations as they come due, and its needs for external financing.

June 30, 2010 compared to June 30, 2009 resulted in the following cash flow changes:

The College's liquidity increased during the year. Cash used by operating activities increased by approximately \$572,000 while non-capital financing activities increased due an increase of grants and contracts by approximately \$1,045,000. Cash provided by investing activities decreased by approximately \$54,000, which is represented by a decrease in interest income as a result of the interest earnings on the unexpended portion of the 2005 OCIA bond proceeds. The net result of these items is an increase in cash by approximately \$600,000.

June 30, 2009 compared to June 30, 2008 resulted in the following cash flow changes:

The College's liquidity decreased during the year. Cash used by operating activities increased by approximately \$705,000. Non-capital financing activities increased due to a state appropriations increase of approximately \$22,000 and an increase in grants and contracts of approximately \$176,000. Cash provided by investing activities decreased by approximately \$221,000, which is represented by a decrease in interest income as a result of the interest earnings on the unexpended portion of the 2005 OCIA bond proceeds. The net result of these items is a decrease in cash by approximately \$438,000.

Although the Statement of Revenues, Expenses, and Changes in Net Assets shows an increase in total net assets of approximately \$831,000, this is representative of all funds combined. Management feels that it is important to point out the net change in fund balances for each individual fund. This is displayed below.

Summary of Changes in Net Assets by Fund

	2010	2009	2008
Educational and General Fund	\$ 482,513	\$ 196,381	\$ (170,544)

Combined Total	\$ 830,770	\$ 488,494	\$ 720,976

Because of a deficit in the restricted funds, the Unrestricted Education and General Fund was reduced by \$12,135 in the College's Statement of Net Assets in 2010. In 2009, because of deficits in restricted funds, the Unrestricted Educational and General Fund was reduced by \$272,695 in the College's Statement of Net Assets.

CAPITAL ASSETS AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2010, the College has approximately \$18.2 million invested in capital assets, net of accumulated depreciation of \$11.8 million. Depreciation charges totaled approximately \$1,101,000 for the current fiscal year, compared to approximately \$906,000 for the previous fiscal year. Details of these assets for the three years are shown below.

CAPITAL ASSETS AND DEBT ADMINISTRATION (Continued)

CAPITAL ASSETS (Continued)

Planned capital expenditures for fiscal year ending June 2011 will be budgeted and paid primarily from Section 13 for the college academic programs. Throughout the year there will be expenditures from other grant programs like Department of Education Congressionally Directed Grants for campus safety and security and equipment for the Radiological Technology Program, Title IV, TANF, and institutional reserve funds.

Section 13 for fiscal year 2011 will expend approximately \$467,000 in new funds to include items such as dorm debt retirement payment and Master Lease debt payment requirements - \$142,000; campus-wide computer technology equipment and software - \$150,000; new computer academic department requests - \$50,000; physical plant upgrades for HVAC, carpet & vehicles - \$80,000; and \$45,000 is undesignated at this time.

DEBT

At June 30, 2010, the College had \$4,550,892 in debt outstanding, compared to \$4,985,746 reported June 30, 2009 and \$5,455,982 reported June 30, 2008. The table below summarizes these amounts by type for the current year and the previous two years.

The Oklahoma Capital Bond Authority (OCIA) 1999 capital lease obligations provide that the College is to make specified monthly payments to OCIA over 10 years. During the years ended June 30, 2010, 2009 and 2008, OCIA made lease principal and interest payments on behalf of the College totaling \$11,240, \$67,452 and \$67,660, respectively. These on-behalf payments have been recorded as restricted state appropriations in the College's Statement of Revenues, Expenses, and Changes in Net Assets.

CAPITAL ASSETS AND DEBT ADMINISTRATION (Continued)

DEBT (Continued)

In November 2005, the OCIA issued its OCIA Bond Issue 2005F Series. Of the total bond indebtedness, the State Regents for Higher Education allocated \$6,000,000 to the College. Concurrently with the allocation, the College entered into a lease agreement with OCIA for projects being funded by the OCIA bonds. This lease agreement provides for the College to make specified monthly payments to OCIA over 25 years. The proceeds of the bonds and subsequent leases are to provide for capital improvements at the College. During the years ended June 30, 2010, 2009 and 2008, OCIA made lease principal and interest payments on behalf of the College totaling \$622,665, \$622,748 and \$623,111, respectively.

More detailed information about the College's outstanding debt is presented in Note E to the financial statements.

WESTERN OKLAHOMA STATE COLLEGE FOUNDATION, INC.

Western Oklahoma State College Foundation, Inc. (the Foundation) is a legally separate tax-exempt component unit of the College. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. Although the College does not control the timing and amount of receipts from the Foundation, the majority of resources, or income thereon, which the Foundation holds and invests, is restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit for the College and is discretely presented in the College's financial statements.

The key components of the Foundation's Net Assets are as follows:

ECONOMIC FACTORS THAT WILL AFFECT THE FUTURE

The economic declines in the markets, bank failures, foreclosures, unemployment, auto industry bailouts, etc., have all made for an uncertain future for Western, our state and nation. The infusion of Federal Stimulus Funds has helped avoid an immediate emergency situation for colleges and universities in Oklahoma, however, the long term economic future and stabilization is still very uncertain once the stimulus dollars are no longer available.

Currently monthly targets in regard to receipt of state revenues are reaching the expectations of the Office of State Finance. For the time being, Western and other institutions of Higher Education have not been forced to take reductions to their FY 11 allocations. Although in FY 10 Western was unable politically to raise tuition, in FY 11 the restriction was raised with strong urging to stay within a 5.5% tuition increase. Western's Board of Regents voted to raise tuition only by 3.2% to help alleviate the state reductions, at the same time holding the increase to the student at a minimum. The additional stimulus funding will no longer be available for FY12 and it is likely that Western will have to request at least a minimal tuition increase.

In order to address the future declines in state revenues and the loss of stimulus dollars, Western is aggressively seeking new revenue streams in three primary areas: (1) on-line course offerings; (2) expanding the number of students participating in our athletic programs; and, (3) expanding targeted academic programs that are in high demand areas, i.e. nursing.

On-line course offerings – Western has seen significant growth in providing on-line course offerings throughout the year and especially during intersession when the demand appears greatest. Western has expanded these offerings and services in a methodical method to meet the demands at a pace that will not outpace the need. The intent of these expansions will be to “fill the gap” with tuition and fee dollars from these on-line courses when the stimulus dollars are no longer available and the likelihood of new additional state dollars are questionable. Western has realized some substantial success in this area, with increases of almost 100% in our out of state student FTE over previous year 2009. It is expected that our growth will begin to level out in the upcoming years.

Expanding the number of students participating in our athletic programs – Western has challenged our athletic coaches to enhance the quality and at the same time expand the number of participants in our athletic programs. Additional scholarship dollars have been provided to help Western coaches recruit quality athletes, increase the number participating, and compete with other state institutions in number and size of scholarships. The increased number of participants has been significant and the revenue generated through tuition and fees by those additional students who participate in athletics is and will be significant in stabilizing the income side of our budget.

ECONOMIC FACTORS THAT WILL AFFECT THE FUTURE (Continued)

Expanding targeted academic programs that are in high demand areas, i.e. nursing - Western will continue to seek revenue to help expand and, at least, maintain our current expansion of our Registered Nursing program. With the conclusion of the Program of Excellence Grant, the State Regents recognized the need to continue the off campus nursing programs that the Program of Excellence Grant has supported for the past five years. This will have a significant impact on Western's ability to continue and/or expand this important program. Additional grant dollars will be sought to solidify our current program and to seek new methods of providing instruction and clinical training at different times and in different formats.

In conclusion, the overall economic outlook remains questionable especially in regard to state allocations. Western is preparing itself to explore every opportunity to stabilize enrollments and to acquire the necessary funding to move the institution forward.

NOTES TO FINANCIAL STATEMENTS

WESTERN OKLAHOMA STATE COLLEGE

June 30, 2010

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations: Western Oklahoma State College (the "College") is a two-year state supported college, located in Altus, Oklahoma, operating under the jurisdiction of the Board of Regents of Western Oklahoma State College and the Oklahoma State Regents for Higher Education. The College is accredited by the North Central Association of Colleges and Schools. The College is a component unit of the State of Oklahoma and is included in the general-purposes financial statements of the State of Oklahoma.

Reporting Entity: The financial reporting entity, as defined by Governmental Accounting Standards Board ("GASB") Statement No. 14, *The Financial Reporting Entity*, includes the accounts and funds of the College.

The Western Oklahoma State College Foundation, Inc. (the "Foundation") is a legally separate tax-exempt component unit of the College. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The eleven member board of trustees of the Foundation is self-perpetuating and consists of nine rotating board members, one permanent trustee, and one non-voting ex officio board member. Although the College does not control the timing and amount of receipts from the Foundation, the majority of resources, or income thereon, that the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements as required by GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*.

During the years ended June 30, 2010 and 2009, respectively, the Foundation distributed \$257,216 and \$267,407 in support to the College for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from Western Oklahoma State College Foundation, Inc., 2801 North Main Street, Altus, Oklahoma 73521.

Financial Statement Presentation and Basis of Accounting: The College's financial statements are presented in accordance with the requirements of GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public College and Universities*. Under GASB Statements No. 34 and 35, the College is required to present a statement of net assets classified between current and noncurrent assets and liabilities, a statement of revenues, expenses and changes in net assets, with separate presentation for operating and nonoperating revenues and expenses, and a statement of cash flows using the direct method.

NOTES TO FINANCIAL STATEMENTS--Continued

WESTERN OKLAHOMA STATE COLLEGE

June 30, 2010

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Financial Statement Presentation and Basis of Accounting--Continued: For financial reporting purposes, the College is considered a special-purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The College has the option to apply all Financial Accounting Standards Board ("FASB") pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The College has elected to not apply FASB pronouncements issued after the applicable date.

Cash Equivalents: For purposes of the statements cash flows, the College considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State Treasurer's Cash Management Program are considered cash equivalents.

Deposits and Investments: The College accounts for its investments at fair value, as determined by quoted market prices, in accordance with GASB Statement No. 31 *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. In accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, the College has disclosed its deposit and investment policies related to the risks identified in GASB Statement No. 40. Changes in unrealized gains (losses) on the carrying value of the investments are reported as a component of investment income in the statements of revenues, expenses, and changes in net assets.

Inventories: Inventories consist of books and supplies held for resale at the bookstore, which are valued at the lower of cost (first-in, first-out basis) or market.

Accounts Receivable: Accounts receivable consists of tuition and fee charges to students and to auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Oklahoma. Student accounts receivable are carried at the unpaid balance of the original amount billed to students, less an estimate made for doubtful accounts based on a review of all outstanding amounts. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Student accounts receivable are written off for financial reporting purposes when deemed uncollectible.

Recoveries of student accounts receivable previously written off are credited to the allowance for doubtful accounts when received.

NOTES TO FINANCIAL STATEMENTS--Continued

WESTERN OKLAHOMA STATE COLLEGE

June 30, 2010

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Accounts Receivable--Continued: A student account receivable is considered to be past due if any portion of the receivable balance is outstanding after the end of the semester.

Other receivables include amounts due from federal, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the College's grants and contracts. Other accounts receivable also include the distribution from the Oklahoma State Regents' endowment trust fund and amounts due from the Oklahoma Capital Improvement Authority ("OCIA") for proceeds from the capital bond improvement program allocated to the College. No allowance for doubtful accounts has been provided for other receivables.

Noncurrent Cash and Investments: Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase capital or other noncurrent assets, are classified as noncurrent assets in the statements of net assets.

Capital Assets: Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. For equipment, the College's capitalization policy includes all items with a unit cost of \$500 or more, and an estimated useful life of greater than one year. Renovation to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 25-50 years for infrastructure and land improvements, and 7 to 20 years for library materials and equipment.

Compensated Absences: Employee vacation pay is accrued when earned by employees. The liability and cost incurred during the year are recorded as accrued expenses in the statements of net assets and compensation expense in the statements of revenues, expenses, and change in net assets.

Noncurrent Liabilities: Noncurrent liabilities include principal amounts of capital lease obligations with contractual maturities greater than one year.

NOTES TO FINANCIAL STATEMENTS--Continued

WESTERN OKLAHOMA STATE COLLEGE

June 30, 2010

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Net Assets: The College's net assets are classified as follows:

Invested in capital assets, net of related debts: This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted-expendable: Restricted expendable net assets include resources in which the College is legally or contractually obligated to spend resources in accordance with restriction imposed by external third parties.

Unrestricted: Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the College, and may be used for discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

The College's unrestricted net assets were designated for the following purposes at June 30:

	<u>2010</u>	<u>2009</u>
Educational and general operations	\$ 2,324,295	\$ 1,581,224
Auxiliary enterprises and other operating activities	<u>1,752,834</u>	<u>2,073,338</u>
Total unrestricted net assets	<u>\$ 4,077,129</u>	<u>\$ 3,654,562</u>

When an expense is incurred that can be paid using either restricted or unrestricted resources, the College's policy is to first apply the expense toward restricted resources, and then toward unrestricted resources.

Classification of Revenues: The College has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating Revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, and (3) certain federal, state and local grants and contracts.

Classification of Revenues--Continued:

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, student aid revenues, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

Scholarship Discounts and Allowances: Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as nonoperating revenues in the College's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the College has recorded a scholarship discount and allowance.

Income Taxes: The College, as a political subdivision of the State of Oklahoma, is exempt from federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. However, the College may be subject to income taxes or unrelated business income under Internal Revenue Code Section 511(a)(2)(b).

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The significant estimates used in the preparation these financial statements include the depreciation of capital assets and the allowance for doubtful accounts for accounts receivable.

Reclassification: Certain amounts in the 2009 financial statements have been reclassified to conform to the current year presentation.

NOTE B--DEPOSITS AND INVESTMENTS

Custodial Credit Risk - Deposits: Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be returned or the College will not be able to recover collateral securities in the possession of an outside party. Generally, the College deposits its funds with the Office of the State Treasurer ("OST") and those funds are pooled with funds of other state agencies and then, in accordance with statutory limitations, are placed in financial institutions or invested as the OST may determine, in the states' name. State statutes require the OST to ensure that all state funds are either insured by Federal Deposit Insurance, collateralized by securities held by the cognizant Federal Reserve Bank, or invested in U.S. government obligations. The OST's responsibilities include receiving and collateralizing the deposit of State funds, investing State funds in compliance with statutory requirements, and maintaining adequate liquidity to meet the cash flow needs of the State and all its funds and agencies. If the College deposits funds directly with financial institutions, those funds must be insured by Federal Deposit Insurance or collateralized by securities held by the cognizant Federal Reserve Bank in the College's name. Some deposits with the OST are placed in the OST's internal investment pool *OK INVEST*. *OK INVEST* pools the resources of all state funds and agencies and invests them in (a) U.S. treasury securities which are explicitly backed by the full faith and credit of the U.S. government; (b) U.S. agency securities which carry an implicit guarantee of the full faith and credit of the U.S. government; (c) money market mutual funds which participants in investments, either directly or indirectly, in securities issued by the U.S. treasury and/or agency and repurchase agreements relating to such securities; and (d) investments related to tri-party repurchase agreements which are collateralized at 102% and, whereby, the collateral is held by a third party in the name of OST.

At June 30, 2010 and 2009, the carrying amounts of all College deposits with the OST were \$4,167,363 and \$3,746,256 respectively. Of funds on deposit with the OST, amounts invested in *OK INVEST* total \$595,262 in 2010 and \$757,401 in 2009.

NOTE B--DEPOSITS AND INVESTMENTS--Continued

Agencies and funds that are considered to be part of the State's reporting entity in the State's Comprehensive Annual Financial Report are allowed to participate in *OK INVEST*. Oklahoma statutes and the OST establish the primary objectives and guidelines governing the investment of funds in *OK INVEST*. Safety, liquidity, and return on investment are the objectives which establish the framework for the day to day *OK INVEST* management with an emphasis on safety of the capital and the probable income to be derived and meeting the State and its funds and agencies' daily cash flow requirements. Guidelines in the Investment Policy address credit quality requirements, diversification percentages and specify the types and maturities of allowable investments, and the specifics regarding these policies can be found on the OST website at <http://www.treasurer.state.ok.us/>. The State Treasurer, at his discretion, may further limit or restrict such investments on a day to day basis. *OK INVEST* includes a substantial investment in securities with an overnight maturity as well as in U.S. government securities with a maturity of up to ten years. *OK INVEST* maintains an overall weighted average maturity of less than two years. Participants in *OK INVEST* maintain an interest in its underlying investments and, accordingly, may be exposed to certain risks. As stated in the OST information statement, the main risks are interest rate risk, credit/default risk, liquidity risk, and U.S. government securities risk. Interest rate risk is the risk that during periods of rising interest rates, the yield and market value of the securities will tend to be lower than prevailing market rates; in periods of falling interest rates, the yield will tend to be higher. Credit/default risk is the risk that an issuer or guarantor of a security, or a bank or other financial institution that has entered into a repurchase agreement, may default on its payment obligations. Liquidity risk is the risk that *OK INVEST* will be unable to pay redemption proceeds within the stated time period because of unusual market conditions, an unusually high volume of redemption requests, or other reasons. U.S. Government securities risk is the risk that the U.S. government will not provide financial support to U.S. government agencies, instrumentalities or sponsored enterprises if it is not obligated to do so by law. Various investment restrictions and limitations are enumerated in the State Treasurer's Investment Policy to mitigate those risks; however, any interest in *OK INVEST* is not insured or guaranteed by the State of Oklahoma, the Federal Deposit Insurance Corporation or any other government agency.

Interest Rate Risk: At June 30, 2010, the College does not have any investments. The College does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk: The College places no limit on the amount the College may invest in any one issuer. However, the majority of the investments are in mutual funds and investments guaranteed by the U.S. Government.

Oklahoma Capital Improvement Authority Lease Obligations: In September 1999, the Oklahoma Capital Improvement Authority ("OCIA") issued its OCIA Bond Issues, 1999 Series A, B and C. Of the total bond indebtedness, the State Regents for Higher Education allocated \$500,000 to the College. Concurrently with the allocation, the College entered into three individual lease agreements with OCIA, representing the three projects being funded through the OCIA bonds. Each of the agreements provides for the College to make specified monthly payments to OCIA over 10 years. The proceeds of the bonds and subsequent leases are to provide for capital improvements at the College. This obligation was repaid in full during the fiscal year ended June 30, 2010.

In November 2005, the OCIA issued its OCIA Bond Issue 2005F Series. Of the total bond indebtedness, the State Regents for Higher Education allocated \$6,000,000 to the College. Concurrently with the allocation, the College entered into a lease agreement with OCIA for projects being funded by the OCIA bonds. Each of the agreements provides for the College to make specified monthly payments to OCIA over 10 years. The proceeds of the bonds and subsequent leases are to provide for capital improvements at the College.

During the years ended June 30, 2010 and 2009, OCIA made principal and interest payments totaling \$633,905 and \$690,200, respectively, on behalf of the College. These on-behalf payments have been recorded as restricted state appropriations in the College's statements of revenues, expenses, and changes in net assets.

NOTE F--RETIREMENT PLAN--Continued

Oklahoma Teachers' Retirement System

Plan Description: The College contributes to the Oklahoma Teachers' Retirement System ("OTRS"), a cost-sharing multiple-employer defined benefit pension plan sponsored by the State of Oklahoma. OTRS provides defined retirement benefits based on members' final compensation, age and term of service. In addition, the retirement plan provides for benefits upon disability and to survivors upon the death of eligible members. The benefit provisions are established and may be amended by the legislature of the State of Oklahoma. Title 70 of the Oklahoma Statutes, Sections 17-101 through 17-120, assigns the authority for management and operation of the plan to the Board of Trustees of OTRS. The OTRS issues a publicly available financial report that includes financial statements and supplementary information for OTRS. That report may be obtained by writing to Teachers' Retirement System of Oklahoma, P.O. Box 53524, Oklahoma City, Oklahoma 73152, or by calling (405) 521-2387.

Funding Policy: The College is required to contribute a fixed percentage of annual compensation on behalf of active members. The employer contribution rate of 9.5%, which increased from 9% in January 2010, is applied to annual compensation, and is determined by state statute. The contribution rate was 8.5%-9% in fiscal year 2009 and 8.35% in fiscal year 2008.

Employees' contributions are also determined by state statute. For all employees, the contribution rate was 7% of covered salaries and fringe benefits in 2010, 2009 and 2008, respectively. These contributions were made directly by the College for 2010, 2009 and 2008.

The College's contributions to the OTRS for the years ended June 30, 2010, 2009 and 2008 were approximately \$971,000, \$934,000 and \$843,000, respectively. These contributions included the College's statutory contribution and the share of the employees' contributions paid directly by the College.

The State of Oklahoma is also required to contribute to the OTRS on behalf of the participating employers. For 2010, the State of Oklahoma contributed 5% of state revenues from sales and use taxes and individual income taxes, to the OTRS on behalf of participating employers.

The College has estimated the amounts contributed to the OTRS by the State of Oklahoma on its behalf by multiplying the ratio of its covered salaries to total covered salaries for the OTRS for the year by the applicable percentage of taxes collected during the year. For the years ended June 30, 2010 and 2009, the total amounts contributed to the OTRS by the State of Oklahoma on behalf of the College were approximately \$343,000 and \$391,000, respectively. These on-behalf payments have been recorded as nonoperating revenues and operating expenses in the statements of revenues, expenses, and changes in net assets.

NOTE G--FUNDS HELD IN TRUST BY OTHERS

Oklahoma State Regents' Endowment Trust Funds

In connection with the Oklahoma State Regents' Endowment Program (the "Endowment Program"), funds are invested by the Oklahoma State Regents on behalf of the College. These funds are not recognized in the College's statement of net assets. At June 30, 2010 and 2009, the funds totaled approximately \$556,000 and \$497,000, respectively. The College is entitled to receive an annual distribution of earnings on these funds. Distributions to be received totaled approximately \$26,000 and \$28,000 at June 30, 2010 and 2009, respectively.

NOTE H--RELATED PARTY TRANSACTIONS

The College is the beneficiary of the Western Oklahoma State College Foundation, Inc. (the "Foundation"), which provides support for the College by way of scholarships and other direct resources. The College contracts with the Foundation to provide limited services and office space in exchange for the support the College receives. The College provides support to the Foundation through employee services and office space.

In July 1998, the Foundation issued revenue bonds through the Jackson County Public Finance Authority to construct a student housing facility (the "Housing Facility") on property owned by the College. Concurrently with the issuance of these bonds, the College entered into a Lease and Development Agreement (the "Lease Agreement") and an Operations and Maintenance Agreement (the "Operation Agreement"). In connection with the Lease Agreement, the College agreed to pay a development fee to the Foundation, and further agreed to rent the real property upon which the Housing Facility was to be constructed. The term of the lease agreement was for 50 years beginning July 1, 1998, and provided for the Foundation to pay the College \$100 per year in rent expense.

The Operation Agreement provided that the College would be responsible for the management and operations of the Housing Facility, and in exchange for the services provided by the College to the Foundation, the Foundation would pay the College the sum of \$925 per semester for each student residing in the Housing Facility. The Operations Agreement automatically renewed each fiscal year but could be terminated by the College or the Foundation. In connection with the Operations Agreement, the College's Board of Regents had verbally agreed to incur the expenses and debt service in excess of revenues collected. The agreement was reviewed annually by the College, and was subject to Board approval for future years. Effective July 1, 2002, the Operations Agreement was terminated, as described below.

NOTE H--RELATED PARTY TRANSACTIONS--Continued

Effective July 1, 2002, the College entered into a Student Housing Facility Lease Agreement (the "Student Housing Lease Agreement") with the Foundation. The Operations Agreement was terminated as a result of this agreement. Under the Student Housing Lease Agreement, the Foundation and the College agreed that the College would lease all of the Foundation's rights and interests in the Housing Facility for \$205,000 per year. The initial lease term of the Student Housing Lease Agreement was from July 1, 2002 through June 30, 2003. The College and the Foundation must agree to future lease terms.

NOTE I--COMMITMENTS AND CONTINGENCIES

The College is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, life, and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than torts, property, and workers' compensation. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

The College, along with other state agencies and political subdivisions, participates in the State of Oklahoma Risk Management Program and the state insurance fund entity risk pool currently operating as a common risk management and insurance program for its members. The College pays an annual premium to the pools for its torts, property, and workers' compensation insurance coverage. The Oklahoma Risk Management Pool's (the "Pool") governing agreement specifies that the Pool will be self-sustaining through member premiums and will reinsure through commercial carriers for claims in excess of specified stop-loss amounts.

NOTE J--WESTERN OKLAHOMA STATE COLLEGE FOUNDATION, INC.

The following are significant disclosures of the Foundation:

NOTE A: DESCRIPTION OF THE ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations: Western Oklahoma State College Foundation, Inc., a nonprofit organization, was formed in 1974 for the benefit of Western Oklahoma State College (the College) in aid of charitable, benevolent educational, scientific and literary purposes.

The purposes of the Foundation are strengthened by the worthy accomplishments that are a part of the history of the Foundation.

The role of the Foundation is to provide the financial support that will enable the College to achieve expanded goals and fulfill higher purposes that otherwise are not possible on limited funding.

The Foundation leaders recognize the potential for the Foundation and realize greater support can be attained for the College as it reaches increasingly significant level of educational leadership.

The Foundation seeks continuous support from individuals, business firms, corporations, civic groups, foundations, service organizations and bequests of wills. As the Foundation grows, the College educational programs grow. The Foundation provides a variety of opportunities to share in the future development of the College and its continuing Commitment to Excellence.

Significant accounting and reporting policies applied in the preparation of the accompanying financial statements are as follows:

Basis of Accounting: The Foundation uses the accrual basis of accounting, whereby revenues are recognized when earned and expenses when incurred. Expenses incurred but not paid are represented by a liability on the statement of financial position. Other revenues are recognized when received or earned. Net assets represent the cumulative excess of revenues recognized over expenses incurred.

NOTE A: DESCRIPTION OF THE ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Financial Statement Presentation: The accompanying financial statements are presented in accordance with Financial Accounting Standards Board (FASB) in its Statements of Financial Accounting Standards (SFAS) No. 116, *Accounting for Contributions Received and Contributions Made*, and Statement No. 117, *Financial Statement for Not-for-Profit Organizations*, which requires the Foundation to report information regarding its financial position and activities according to the three classes of net assets as follows:

Unrestricted net assets – Net assets that are not subject to donor imposed stipulations.

Temporarily restricted net assets – Net assets subject to donor imposed stipulations that may or will be met, either by actions of the Foundation and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Permanently restricted net assets – Net assets subject to donor imposed stipulations that they be maintained permanently by the Foundation. The donors of these assets permit the Foundation to use all or part of the income earned on any related investments for general or specific purpose.

Investments: The Foundation has adopted SFAS No. 157, *Fair Value Measurements* with respect to financial assets and liabilities. SFAS No.157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value under SFAS No. 157 is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS No. 157 establishes fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels, as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs that are derived principally from or corroborated by observable market data;

Level 3 – Inputs that are unobservable and significant to overall fair measurement.

Investments which are contributed to the Foundation are carried at their fair market value at the time of donation.

Capital Assets: Capital assets are recorded at cost at the date of acquisition. Depreciation is computed using the straight-line method over the estimated useful life of the asset, which is generally 37.5 years for buildings.

Capital assets that are contributed to the Foundation are carried at their fair market value at the time of the donation.

Statement of Cash Flows: In accordance with FASB Statement No. 95, *Statement of Cash Flows*, as amended by FASB Statement No.17, the accompanying financial statements include a statement of cash flows, which is presented using the direct method. For purposes of the statements of cash flows, cash and cash equivalents include checking and time deposits with maturities of 90 days or less.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, the significant estimates used in the preparation of these financial statements are depreciation and the allowance for investment revaluation.

Income Taxes: The Foundation is an organization exempt from income taxes under Section 501 (c) (3) of the Internal Revenue Code. As such, no provision has been made for federal or state income taxes. Federal and State informational tax returns have been filed as required.

Concentration of Risk: The Foundation maintains its cash accounts and certificates of deposit at several commercial banks. Cash accounts and certificates of deposit at each bank are insured by the Federal Deposit Insurance Corporation (FDIC) for up to \$250,000 and additional insurance to cover any of those amounts that may exceed the \$250,000 FDIC insurance.

Evaluation of Subsequent Events: In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*. SFAS No. 165 established general standards of accounting for and disclosure of events that occur after the statement of financial position date, but before financial statements are issued or are available to be issued. SFAS No. 165 requires disclosure of the date through which an entity has evaluated subsequent events and the basis for that date. Accordingly, the Foundation adopted SFAS No. 165 as of June 30, 2010 and evaluated its financial statement for subsequent events through August 19, 2010. The Foundation is not aware of any such events which would require recognition or disclosure in the financial statements.

NOTE B: WOSC STUDENT FACILITIES REVENUE BOND SERIES 2008

In July 1998, Western Oklahoma State College Foundation, Inc. (Foundation) entered into a lease and development agreement with the Board of Regents of Western Oklahoma State College (the Board) to lease a portion of the Western Oklahoma State College campus for the purpose of constructing a student housing facility. The Board agreed to pay the development fee of \$150,000 in order to obtain the financing. In addition, the Board entered into an operation and maintenance agreement whereby the Board agreed to operate and maintain the student housing facility. In July 2002, the Board terminated the original operation and maintenance agreement and entered into a lease agreement providing for an annual lease of \$205,000. The Board agreed to pay for all maintenance, utilities, insurance and repairs necessary to operate the student housing facility.

In June 2008, the WOSC Student Facilities Revenue Bonds Series 1998 were retired with the proceeds from the issue of the WOSC Student Facilities Revenue Bonds Series 2008 in the amount of \$1,360,000 with interest due on June 1 and December 1 and with principal payments annually. The first principal and interest payments commenced on December 1, 2008.

NOTE J--WESTERN OKLAHOMA STATE COLLEGE FOUNDATION, INC.--Continued

NOTE E: ENDOWMENT DISCLOSURE--Continued

Interpretation Of Relevant Law (Continued)

The Board of Trustees of the Foundation have interpreted the State Prudent Management of Institutional Funds Act ("SPMIFA") as requiring the preservation of the fair value of the original gift as of the gift date of the donor restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets: (a) the original value of the gifts donated to the permanent endowment; (b) the original value of subsequent gifts to the permanent endowment; and (c) accumulation to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor restricted endowment fund that is not classified in permanently restricted net asset is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in the manner consistent with the standard of prudence prescribed by SPMIFA. In accordance with SPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor restricted endowment funds.

- (1) The duration and preservation of the funds;
- (2) The purpose of the Foundation and donor restricted endowment fund;
- (3) General economic conditions;
- (4) Possible effect of inflation and deflation;
- (5) The expected total return from income and appreciation of investments;
- (6) Other resources of the Foundation;
- (7) The investment policies of the Foundation;

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that donor or SPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, the allowance reported in unrestricted net assets which is a reduction in fair market value of invested endowment funds is \$39,516 and \$96,533 at June 30, 2010 and 2009, respectively.

Return Objectivities and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of the donor restricted funds that the Foundation must hold in perpetuity or for a donor specified period as well as board designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested with the primary objective of growth and a secondary objective of current income. The asset allocation policies reflect and are consistent with the investment objectives and risk tolerances expressed through the investment policy. These policies, developed after examining the historical relationships of risk and return among asset classes, are designed to provide the highest probability of meeting or exceeding the return objectives at the lowest level of risk. Actual returns in any given year may vary from this amount.

Spending Policy

The Foundation has a policy of appropriating for distribution each year amounts up to, but not to exceed actual investment performance for the year.

How The Investment Objectives Relate to the Spending Policy

Since the Foundation has a policy of designating unrestricted funds each year for investment, it feels that this policy protects the purchasing power of the endowments. In light of the current market fluctuations and the future needs of the Foundation, it evaluates the spending policy annually to ensure that it remains in accordance with the long term objectives of the Foundation.

NOTE K--ACCOUNTING STANDARDS ISSUED NOT YET ADOPTED

In 2010, GASB issued Statement No. 59, *Financial Instruments Omnibus*. GASB No. 59 provides updates and improvements to existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2010. Earlier application is encouraged. Management has determined that this Statement will have no effect on the College's financial condition or results of operations.

Independent Auditors' Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards

Board of Regents
Western Oklahoma State College
Altus, Oklahoma

We have audited the financial statement of Western Oklahoma State College (the "College"), a component unit of the State of Oklahoma, as of and for the years ended June 30, 2010 and 2009, and have issued our report thereon dated October 5, 2010. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Other auditors audited the financial statements of the Western Oklahoma State College Foundation, Inc. (the "Foundation"), the College's discretely presented component unit, as described in our report on the College's financial statements. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the College's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatements, we performed tests of compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance and other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the use of the Board of Regents, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with
Requirements Applicable to Each Major Program and on Internal
Control Over Compliance in Accordance With OMB Circular A-133
and on the Schedule of Expenditures of Federal Awards

Board of Regents
Western Oklahoma State College
Altus, Oklahoma

Compliance

We have audited the compliance of Western Oklahoma State College (the "College") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. The College's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the College's management. Our responsibility is to express an opinion on the compliance of Western Oklahoma State College based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the College's compliance with those requirements.

In our opinion, Western Oklahoma State College complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the College is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the College's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the College as of and for the year ended June 30, 2010, and have issued our report thereon dated October 5, 2010. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the use of the Board of Regents, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

WESTERN OKLAHOMA STATE COLLEGE

June 30, 2010

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Schedule of Expenditures of Federal Awards is presented on the accrual basis of accounting, which is the basis used by Western Oklahoma State College to present the basic financial statements. Under the accrual basis, expenditures are recognized when the related liability is incurred.

NOTE B--FEDERAL FAMILY EDUCATION LOAN PROGRAM

The College participates in the Federal Family Education Program, Federal CFDA number 84.032 (the "Program"), which includes the Federal Stafford Loan Program, Federal Parents Loans for Undergraduate Students, and Federal Supplemental Loans for Students. The Program does not require the College to draw down cash; however, the College is required to perform certain administrative functions under the Program. Failure to perform such functions may require the College to reimburse the loan guarantee agencies.

NOTE C--SUBRECIPIENTS

During the year ended June 30, 2010, the College did not provide any federal awards to subrecipients.
